PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student who ships complete web and mobile products with React, Node.js, MongoDB, Java, and Flutter. Took a client's photography website from first sketch to live hosting, covering secure login, media storage, and an admin dashboard. Seeking a software developer role on a collaborative engineering team.

TECHNICAL SKILLS

Languages: Java, JavaScript, C, Python (fundamentals)

Frontend: React.js, React Hooks, HTML5, CSS3, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, Middleware, JWT Authentication, CRUD Operations

Databases: MongoDB, MongoDB Atlas, Mongoose, MySQL, SQL, Firebase

Java: OOP, Collections, Exception Handling, JDBC, Spring Core, Spring Boot

Mobile: Flutter, FlutterFlow

Tools: Git, GitHub, VS Code, Postman, Vercel, Cloudinary, EmailJS, Linux

Design: Figma, Canva

Core Concepts: Object-Oriented Programming, DBMS, Data Structures, API Integration

PROFESSIONAL EXPERIENCE

Full Stack Developer, Photography Portfolio Platform

Freelance (Remote) | August 2026 – Present

- Developed a photography website on React, Node.js, Express, and MongoDB Atlas with 2 interfaces (a visitor gallery and a JWT-protected admin dashboard for bookings and content)
- Configured Cloudinary for browser uploads of images and videos up to 150 MB per file, with HEIC support, which removed server storage dependency
- Integrated 1 EmailJS notification flow into the booking form so each enquiry reaches the owner by email
- Debugged 3 categories of production issues (CORS, CSP, and hosting) to reach a stable Vercel release
- Delivered all 5 layers in 2 months, from UI and API to database, media storage, and deployment

UI/UX Design Trainee

Infosmite | Tamil Nadu, India | June 2024 – July 2024

- Created screens for 2 platforms (web and mobile) in Figma during a 2-month training
- Applied 3 design principles (usability, consistency, and user experience) to structure application layouts
- Organized layouts across 2 platforms with consistent navigation and spacing

PROJECTS

FixNGo: Roadside Assistance App (Flutter)

- Programmed a Flutter app with 3 core features (nearby mechanic discovery, GPS location, and emergency SOS)
- Categorized 2 provider types (verified mechanics and emergency vehicles) so users can pick the right help
- Introduced 1 one-tap SOS button to make help quick to reach in roadside emergencies
- Emphasized accessibility across all 3 features to support users during roadside emergencies

AgriConnect: Farmer and Consumer Platform (Flutter, MongoDB)

- Conceived a marketplace linking 2 user groups (farmers and consumers) for direct sales of agricultural products
- Implemented separate login and navigation flows for 2 user roles, backed by MongoDB for database and backend services
- Designed responsive, user-friendly screens for 2 groups (farmers and consumers)
- Prioritized 2 goals (user-friendly interfaces and practical marketplace functionality) across the platform

Portfolio Website (React.js, HTML, CSS)

- Coded a responsive personal website in React.js with reusable components for 4 sections (projects, skills, certifications, and contact)
- Assembled the site with 3 technologies (React.js, HTML, and CSS)
- Launched clean, responsive navigation that adapts to 2 device types (phones and desktops)
- Showcased 3 professional certifications beside projects and skills

EDUCATION

B.E. in Computer Science and Engineering

Francis Xavier Engineering College, Tirunelveli | 2023 – 2027 | CGPA: 8.18 (through 6th semester)

Higher Secondary (HSC)

St. Xavier's Higher Secondary School, Tirunelveli | 2023 | 83.3%

CERTIFICATIONS

Red Hat System Administration I (RH124), Version 10, Red Hat

- Covered 4 areas (Linux administration, command-line operations, user and group management, and file permissions)
- Strengthened 1 key skill, Linux command-line fluency, for backend and deployment work

Programming Using Java, Infosys Springboard

- Studied 2 core areas (Java fundamentals and object-oriented programming)
- Reinforced 1 foundation, object-oriented design, that supports Spring Boot and backend development

Python Essentials 1, Cisco

- Practiced 5 core topics (Python fundamentals, data types, operators, control flow, and functions)

LANGUAGES

English, Tamil
